

Cognos 8 Business Intelligence

8.3 Training Curriculum

Training designed to meet your needs!

Effective education is one of the best ways to ensure the successful implementation in driving greater business value and results from your investment in the Cognos solution. Cognos Education Services has developed a comprehensive curriculum for Cognos 8 BI 8.3 working alongside our product development teams. We have flexible training options – from classroom training where our skilled

instructors will help you master the skills needed to be productive with the Cognos software with intensive hands-on exercises and close interaction to highly interactive e-Learning courses for convenient and effective learning. The 8.3 courses have been developed with a role-based focus, role descriptions and associated courses are listed below.

Job Role	Definition
Project Manager	Responsible for managing the development, maintenance and deployment of Business Intelligence Solutions (manage budgets, objectives, risks, people and timelines associated with fulfilling a defined scope of requirements for a Cognos 8 BI implementation).
Consumer	Uses the Cognos Connection Portal to view reports, customize personal portal experience, manage personal content and/or view scorecards.
Author	<p>Business Author: Build simple queries to focus on variances, sift through large amounts of data, and investigate different areas of your business through ad hoc reports and interactive analyses.</p> <p>Professional Author: Build sophisticated reports and dashboards for consumers by gathering report requirements and creating the reports for distribution. Involved in setting-up business events management activities.</p>
Developer	Responsible for building databases, models or applications for end-users. This can include data mart development, metadata and OLAP models, building and deployment of scorecards or development of SDK applications.
Administrator	Manage the deployment of Cognos 8 Business Intelligence, including installation, configuration, maintenance, content management, security and system optimization.

About Cognos Global Education Services

Cognos Global Education Services offers the right solution to fit the needs of your company, location, user group, budgets, schedules, and learning styles. From in-depth technical training to on-demand task-specific instruction, we offer the flexibility of classroom training in our training centers around the world, at your local offices, or bring it to the user's desktop. Your users can also benefit from interactive, e-Learning delivered in modular format or take advantage of our custom learning solutions to provide the right blend of training at the right time.

About Cognos

Cognos provides enterprise planning and business intelligence software and services to help companies plan, understand, and manage financial and operational performance.

Cognos brings together technology, analytical applications, best practices, and a broad network of partners to deliver a complete performance system. The Cognos performance system is open and adaptive, leveraging your existing ERP, packaged applications, and database investments. It lets you answer the questions—How are we doing? Why

are we on or off track? What should we do about it?—and lets you understand and monitor current performance while planning for your future.

Cognos serves more than 23,000 customers in 135+ countries. Our top-100 enterprise customers consistently outperform market indexes. Cognos performance management solutions and services are also available from more than 3,000 worldwide partners and resellers. For more information, visit us at www.cognos.com
